ABOUT
COMPANY

REAT MAPHENGULANE GROUP (PTY) LTD was established in 2023 by its Chairman, Sicelo Jufter Mhlongo. Mr Mhlongo brings over 14 years of experience in the construction and mining industries. As the company managing director He holds various qualifications from institutions such as NOSSA Colleges, SS Training Centre, the Chamber of Mines, and UNISA to name a few.

RM Group holds a diversified portfolio with operations in Mechanical Engineering, Civil Engineering, Construction, Mining, General Maintenance & Repair Works among others. We also provide and outsource related services from trusted business partners.

RM Group's mission is to maintain quality service through continuous professional development, bringing essential services to the community at large and to other enterprises. We promote an equity efficient plan that conforms to the minimum requirements as promulgated by the legislation of Small Medium Micro-Enterprises.

OUR
VISION & MISSION

VISION

Our vision is to become the most respected service provider in our industry, known for exceptional service delivery. Within the next six to ten years, we aim to significantly grow our market share, spreading our passion for the work through strong client recognition and by advising small to medium-sized enterprises (SMEs).

MISSION

To lead in the marketplace through delivering world-class service to our clients. To committing ourselves and exceeding customer expectations whilst achieving sufficient profits to finance growth. As RM Group, we aim to assist in minimizing the high unemployment rate among the youth of Mpumalanga by creating job opportunities and providing experiential training to deserving youth.

THE COMPANY
VALUES

Objective

To lead in the marketplace through delivering world class service to our clients. To committing ourselves and exceeding customer expectations whilst achieving sufficient profits to finance growth. As RM Group we aim to assist in minimizing the high unemployment rate in the youth of Mpumalanga through creating job opportunities and proving experiential training to deserving youth.

Our Values

- Accountability: Our aim is to provide a high standard of services and our failure to do so we will take full responsibility for our short comings and learn from them to improve on our efficiency and quality.
- Value Add: We provide services and products that add the utmost value to our clients.
- Convenience: Client convenience is one of our primary goals thus we provide several services under one banner for ease of choice.
- Credibility: Our work ethic and drive push us to provide credible services to leave every client satisfied to the extent of encouraging a referral, this is in-line with our marketing strategy.
- Pushing beyond boundaries: Good is not enough, we strive for excellence.

SERVICES

Our Services

CIVIL CONSTRUCTION SERVICES

Structural Engineering

We manage structural works from sub-surface groundwork and piling through to upper-tier structural steel installation and plant maintenance. Backed by deep sector experience in mining, energy, and municipal infrastructure, we execute complex structural builds safely, on schedule

Building Construction

We offer heavy-duty building construction for industrial and mining operations, focusing on the execution of rugged brick masonry walls, structural steel superstructures, and concrete industrial facilities built to withstand tough site conditions.

SERVICES

Road Construction

Our new road construction service handles the entire process, starting with your initial ideas and design, then moving to thorough groundwork and site preparation to ensure a strong base.

We carefully lay down a premium base layer, followed by expert tar and asphalt surfacing, perfect for everything from residential driveways and commercial parking lots to industrial and municipal roads. We round out the project with professional road markings and speed hump installations to enhance safety and manage traffic effectively.

Engineering Services

Electrical and Mechanical work

We offer a comprehensive suite of services focused on power, energy, mechanical, and production systems. This includes installing LV, MV, and HV standby power systems, along with lightning and surge protection. Our expertise extends to renewable energy solutions like solar plans and wind turbine internals.

SERVICES

Supply, installation and maintenance

We supply, install and maintain a wide range of essential equipment and materials. This includes plastic pipes like HDPE, LDPE, PVC, uPVC, GRP and Polypropylene, alongside pumps, valves and various machinery such as gearboxes, motors and vibrators. We also specialize in coal separation equipment including screens and cyclones. Beyond these, we provide comprehensive steel and plastic fabrication services to meet diverse project needs.

Coupling

We supply and install specialized mechanical pipe couplings—including PVC Prolock couplings, PVC Prolock step couplings, and Klamfex gripper couplings—to ensure pressure-tight, secure joints across industrial, mining, and municipal piping networks

PROJECTS

PROJECTS

Exxaro Matla Coal Project

Description:
Civil and Mechanical Work (Building Pump Station)

Project Value and Duration
18 Months (R2,5 Million)

Reference Contact
M Nkosi Mine (Overseer)
017 616 2166

Exxaro Matla Coal Project 2

Description:
Cleaning and maintaning pollution Control Dam Lining

Project Value and Duration
6 Months (R3,5 Million)

Reference Contact
M Nkosi Mine (Overseer)
017 616 2166

Thungela Mine

Description:
Supply and installation of steel pipes

Project Value and Duration
3 Months (R700 000.00)

Reference Contact
Sithembiso Sibitane (Project Supervisor)
071 254 0950

Eskom SOC Duvha

Description:
Providing transport

Project Value and Duration
2 Days (R23 400.00)

PROJECTS

Thungela Mine

Description:
Supply and deliver Plant Spares

Project Value and Duration
1 Day (R500 000.00)

Reference Contact
Sifiso Skhosana (Stores)
